

STAKEHOLDER OVERVIEW

Employee Performance Appraisal Flow

This view summarizes how the system moves from organizational setup and employee assignment into goal planning, assessment, approval, finalization, and reporting. It is designed for leadership, HR, and operational stakeholders who need a fast understanding of the end-to-end process.

EXECUTIVE SUMMARY

1. Controlled Setup

Departments, job titles, templates, rating scales, and employee reporting lines are established before a cycle begins.

2. Managed Workflow

Employees, line managers, and approving managers each complete their stage with audit history and controlled send-back points.

3. Decision-Ready Output

Approved and finalized appraisals feed score summaries, stakeholder reports, Excel exports, and printable PDF records.

STAKEHOLDER FLOW DIAGRAM

FOUNDATION Setup Masters Departments, job titles, templates, rating scales, competencies, goals Access and Users Users, employee profiles, roles, permissions, reporting lines Review Cycle Create cycle, define deadlines, open when ready Cycle Assignment and Appraisal Creation Assign employees to the cycle with a template. The system creates one appraisal per employee per cycle.

APPRAISAL WORKFLOW 1. Goal Planning Employee and manager define SMART objectives, KPI measures, targets, evidence, and due dates. Business weights must total exactly 100. 2. Self Assessment Employee captures performance achieved, self ratings, comments, and evidence. Submission moves the appraisal to the manager. 3. Manager Review Line manager rates objectives and competencies, adds comments, and either forwards or sends back. All manager ratings must be present. 4. Final Approval Approving manager confirms the result or sends it back for correction. Approval calculates and stores final scores. 5. Finalization HR finalizes the approved appraisal and locks the record. Manager send-back Approver send-back for correction

CONTROLS AND OUTPUTS Governance and Access Policies, permissions, roles, mandatory approving manager, audit history, and notification trail. Scoring and Final Result Business score from weighted manager ratings, values score from competencies, overall score from template weighting. Reporting and Documentation Dashboard metrics, summary reports, OpenSpout Excel exports, browser print view, and DOMPdf final appraisal packs.
